

09:00 – 17:00 hrs, 15-17 SEPTEMBER, 2021 - I.C.E Hanoi Vietnam

IMPORTANT UPDATE FROM VIETNAM MANUFACTURING EXPO

28th June, 2021

Vietnam Manufacturing Expo want to express our concern for everyone impacted by COVID.

After closely monitoring the COVID situation and in consultation with our valued stakeholders, we have made the appropriate decision to reschedule Vietnam Manufacturing Expo to later in the year.

Previously scheduled to run 11-13 August, we have been working closely with our customers and partners and are pleased to announce that in 2021, **Vietnam Manufacturing Expo will be held at I.C.E. Hanoi, on 15-17 September**, alongside NEPCON Vietnam.

We are confident this will provide our exhibitors and attendees with the opportunity to benefit from and participate in high quality complementary events, in the one place, at the one time.

We sought valuable input from our stakeholders prior to making this decision and will do our utmost to help all our customers, partners and attendees to prepare for the new dates. Our number one priority continues to be the health and safety of our participants and as such, we will remain guided by the expert advice of the public health authorities.

We would like to thank everyone for their encouragement and support received during this challenging time.

If you have any questions regarding the event, please contact your **Account Manager** or directly Project Manager (Mr. Savi Phan Ngan at +84.989 599115 or ngan.phan@reedtradex.vn) who will be happy to help with your queries.

Sincerely,

VME Show Team
